Jerry Tantono

AI & Data Engineering Student · Nanyang Polytechnic

Singapore · jerrytantono@gmail.com · +65 8321 8628 · linkedin.com/in/jerry-tantono · Nationality: Indonesian

PROFILE

Year 2 Diploma in AI & Data Engineering student seeking an internship in AI, data engineering or IoT. Experience building a wearable-sensor data pipeline, Power BI dashboards on 221-country data, and a business strategy case study, backed by retail operations and badminton coaching experience.

EDUCATION

Nanyang Polytechnic 2025 – Present
Diploma in AI & Data Engineering (Year 2) · CCA: Badminton

Guangyang Secondary School 2021 – 2024
GCE O-Level · Pure Sciences, Additional Mathematics
Leadership: Badminton Captain · **Award:** Merit Award, Mathematics Olympiad

Teck Ghee Primary School · PSLE · CCA: Sports and Wellness 2018 – 2020

Meridian Primary School · Primary School 2015 – 2017

PROJECTS

Construction Fall & Slip Risk Detection (WSH-Tech) 2026
Team of 4 · Data pipeline & sensor integration

- Built a wearable pipeline: Arduino Nesso N1 (BMI270 IMU) streaming BLE packets (~44/s) to a Python (Bleak) gateway, 5-sample moving-average cleaning, three SQLite databases and a live Streamlit dashboard.
- Processed 84,106 raw readings into 56,387 events, producing 15,125 incident records and 764 team alerts.

The Global Diabetes Economy Aug 2026
Team of 3 · 2045 Projection & Economic Cost dashboards

- Integrated 10 datasets from 7 providers (WHO, World Bank, IHME, etc.) into a 221-country panel (3,094 rows × 33 columns) using Python and CRISP-DM.
- Built Power BI dashboards forecasting 2.11 billion cases by 2045 (+89.5%) and exposing an 81× healthcare funding gap between high- and low-income countries.

Scaling Shopee Pickup Points Jan 2026
Individual strategy case study

- Researched why Indonesian users skip pickup points and designed a US$10M plan with a 12-month roadmap, KPIs and four automated risk safeguards, targeting 30% urban adoption.

Smart Classroom Traffic Light System · Arduino Uno R3 · C++ 2025

- Built a breadboard prototype that samples sound every 100 ms and drives a red–amber–green LED traffic light (<55 / 55–68 / >68 dBA), with live temperature and humidity readout.

EXPERIENCE

Badminton Coach (Main & Assistant) · Sparring Partner Part-time
Catholic Junior College & private sessions

- Assistant coach and sparring partner for the CJC school team; coach students of all ages and levels in private sessions.

Sales Associate — URBNZD CO · Athleisure fashion Part-time

- Handled customer enquiries and product recommendations; updated spreadsheets, recorded inventory, processed orders and prepared stock reports.

Sales Associate — SunnyHills Part-time

- Provided customer service and gift recommendations; supported stock monitoring, replenishment, order processing and stock reports.

ACHIEVEMENTS & COMMUNITY

- Badminton: 3rd place Aura Badminton League (Mixed Doubles); quarter-finals Aura Badminton League (Singles); Round of 16 at Papago Carnival 2025 and SMU Shuttlers Challenge 2024.
- NYP Freshmen Orientation Mentor; St. Luke's Eldercare volunteer; neighbourhood clean-up organiser.

SKILLS

Tools & technologies: Python, SQL/SQLite, Power BI, Streamlit, Bluetooth Low Energy, Arduino/IMU sensors, AWS (EC2, VPC, RDS, S3), Flask, Excel/Google Sheets

Areas: Machine learning, deep learning, NLP, computer vision, data integration & cleaning, sensor data pipelines, CRISP-DM

Other: Customer service, inventory management, coaching and communication
